

FOOD CONTACT DECLARATION USA

Dyneema[®] Fibre, manufactured by DSM Dyneema may be used as intended for Cut Resistant Gloves for the meat industry in full compliance with the Federal Food, Drug, and Cosmetic Act and all applicable food additive regulations.

It is the responsibility of the producer of the gloves c.q. the supplier of the gloves to the meat industry to guarantee its compliance under actual and foreseeable conditions of use, and to check it on a regular basis.

The regulation mentioned above refers to the final articles that directly contact the food.

This declaration is restricted to Dyneema[®] Fibre as it leaves the production facilities. This declaration does not cover:

- any substance subsequently added by the producer of the gloves,
- poor material or end product due to inexpert manufacture by the producer of the gloves.
- any negative influence of the finished article on the organoleptic properties of the meat.

This declaration has been prepared and issued on the basis of currently applicable laws and regulations and our best knowledge and expertise currently available; the addressee or recipient is advised to regularly request updates hereof. This declaration replaces all previous ones relating to this subject.

The General Conditions of Sale of the entity selling this product apply to and are part of all our quotations, offers, agreements, sales, deliveries and all other similar dealings, unless explicitly agreed otherwise by means of a duly and mutually executed document.

On behalf of the manufacturer,

Ir. G.P.J.M. Tiemersma-Thoone
Product Safety Expert.
